WORK EXPERIENCE

Full-Stack Web Developer & Marketing Specialist

Rally Trailer Manufacturing / Rally Rep, Remote — 2025 – Present

- Proposed and led a complete WordPress rebuild using a custom PHP theme and ACF, cutting website load times from approximately 26 seconds to under 2 seconds.
- Developed a private dealer management portal with lead tracking, inventory management, production updates, and custom workflows connecting dealers with Rally's operations team.
- Built a ZIP-code-based dealer routing system and interactive trailer comparison tools, while restructuring 30+ product pages and creating 27 reusable content modules.

Frontend Web Developer

PROLOOK Sports, Remote — 2026 – Present

- Rebuilt the ALL IN Tournament website's frontend using SvelteKit and Tailwind CSS, modernizing the navigation and responsive layouts while maintaining compatibility with the existing application.
- Developed the 2027 tournament registration experience, including team registration forms, administrative workflows, and automated email notifications.
- Collaborated with engineering and QA teams through staging and production releases, resolving frontend issues and reducing homepage image weight from 3.5 MB to 1.8 MB.

Communications & Website Specialist

Lincoln Academy, Remote — 2025 – Present

- Rebuilt the school's WordPress website using a custom PHP theme and ACF, migrating and reorganizing approximately 200 pages while improving accessibility and mobile usability.
- Developed custom WordPress plugins for lunch ordering and internal school workflows, including a kitchen dashboard that cut meal-processing time roughly in half.
- Built staff-facing tools and automated processes to simplify daily operations, including secure Google-based staff access and custom approval workflows.

FEATURED PROJECTS

The Twilight Trekkers

Wordpress, SEO, Digital Marketing

Built and managed an outdoor travel website while growing Instagram to 26K+ followers and securing 34 brand collaborations.

Meal Planning App

Full-Stack, Google OAuth, Web App

Built a private meal-planning app with personalized portions, grocery budgeting, and Google authentication.
